eCommerce website designs

Every eCommerce website design is built with your products added, ready for you to start selling online instantly. Choose from our **eCommerce website design** packages below. Each eCommerce website design package can have optional features added whenever you wish and is specifically developed for you and your target market with ecommerce functions that will enhance the shoppers experience as well as increase your revenue.

All online stores are custom designed and built so each eCommerce website function can be modified to suit your exact requirements. For instance, you may want 'Banner Advertising' or 'Discount Voucher Schemes' or 'Reward Schemes' added to your eCommerce website design - just let us know what you'd like and we'll build it for you.

Contact aprompt - home of great eCommerce website designs that work well for your business.

Price (excl VAT, Hosting and optional items)	£1575.00	£2530.00	£3940.00

¹ Your online store will need to be hosted on a Windows web server that supports ASP web scripts and MySQL databases. You can either choose to have your site hosted with us and we look after all your website hosting requirements or you can arrange your own website hosting.

² The number of email addresses shown and the Webmail service is dependent on using our UK based managed hosting service (recommended).

eCommerce website optional add-ons

Images

We can supply professional stock images upon request - we'll source them and send them to you to use on your website - just tell us the kind of image you need and we'll find it for you.

Cost: Images are £22.00/each for one user licence per website.

CMS Training

We are happy to train you to use the Content Management System admin area software within the first month of your Content Management System website going live on our testing server.

Cost: Training session is for up to 2 hours @ £250.00 + travel to and from your premises @ 45p/mile. Thereafter you have unlimited email support for the life of your website. Please refer to the [website warranty](#) in our Terms and Conditions for further details.

Page Population

We will add your supplied text and images to your Content Management System for you in a layout that keeps the brand image for your company, including adding all your supplied meta page titles, meta keywords and meta page description for each page.

Cost: £55.00/page

SEO copywriting (Search Engine Optimisation)

SEO meta information (for Search Engine Optimisation) We will search engine optimise your supplied page text on a per page basis (i.e. we will rewrite your site text to be search engine optimised for the keywords and keyphrases you want). We will also create all meta page titles, meta keywords and meta page description for each page. Please note that for eCommerce products, the charges depend on how many products you have, rather than how many website pages you have.

Costs: from £150.00/page. [Search Engine Optimisation](#)

SEO copywriting training

We can train you on current SEO techniques for writing website copy. Training sessions last up to 2 hours

Cost: £300.00 + travel @ 45ppm

Website Copywriting

Website copywriting is a valuable service which goes hand-in-hand with our SEO services provided by our search engine optimisers. Website copywriting rates vary depending on how many pages you would like copywritten and if you would like our copywriters to come to your premises. Please contact us to discuss your copywriting requirements. [Website Copywriters](#)

Additional functions

Any function can be added to your eCommerce website design such as News/Business Blogs, web applications, CRMs, booking systems, subscription based functions, email to a friend, forums, social bookmarking, news and events listings... the list is endless really. Just give us a call and we can give you lots of ideas that will suit your business and help your website.

Domain name registration

Domain names (.co.uk) @ £25.00 every two years

Domain names (.com) @ £25.00/year

Domain names (.net) @ £25.00/year

Traffic Stats

Find out about the traffic to your site, where users come from, what keywords they used to find you and much more.

Cost: £25.00/year

Additional Security

Weekly website back-up £20.00/month (chargeable every 3 months)
